Mandy Vance

Mandy,

As originally envisioned by the Oak to Timberline Fire Safe Council, this grant was to assist us in the printing and distribution of a Community Wildfire Protection Plan for the area covered by our Fire Safe Council. The Plan was originally going to be researched and developed by a local "expert" who volunteered his time and energy to our Council, to produce the document. However, before he could begin any work on the project, his personal situation changed and he could no longer do the work for us. Therefore we do not have a CWPP in hand to print and distribute.

Therefore the need for the funds in this grant agreement is no longer valid.

We therefore respectfully decline the grant for these reasons.

If you have any further questions, please feel free to contact me.

Sincerely,

Jim Huffman

Board Chairman

Oak to Timberline Fire Safe Council
