

GREAT SIERRA RIVER CLEANUP

SATURDAY,
SEPT. 20, 2014
9AM-NOON

Be a part of the largest cleanup effort in the Sierra Nevada

A project of the Sierra Nevada Conservancy in coordination with the California Coastal Cleanup Day

Our Sierra rivers

stretch from Mount Whitney, the tallest peak in the continental United States, to Yosemite National Park, from the Giant Sequoias to Lassen National Park, and all our treasured places in between.

We need volunteers on all of our Sierra rivers:

- American River
- Cosumnes River
- Feather River
- Kaweah River
- Kern River
- Kings River
- Merced River
- Mokelumne River
- Owens River
- Sacramento River
- San Joaquin River
- Stanislaus River
- Truckee River
- Tuolumne River
- Yuba River

Last year more than 4,200 volunteers joined together to remove nearly 39 tons of trash and recyclables from Sierra rivers during the fifth annual Great Sierra River Cleanup.

The Great Sierra River Cleanup will host thousands of volunteers on all 21 major river systems. *Join us on Saturday, September 20, 2014, from 9 am to Noon.*

The Great Sierra River Cleanup is a fun event for people of all ages! To find a cleanup site near you, visit: www.sierranevada.ca.gov.
